PROFESSIONAL SUMMARY

Junior web developer with training in frontend and backend technologies through Angela Yu's web development bootcamp on Udemy.

Foundational knowledge of HTML, CSS, JavaScript, React.js, Node.js, Express, and PostgreSQL. Practical experience gained through coursework and the development of a personal web application using React.

Seeking junior web development opportunities and freelance projects where I can apply my current skills, contribute to web development tasks, and continue growing professionally.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, JSX, and Bootstrap.

Backend: Node.js, Express, and REST API fundamentals.

Databases: PostgreSQL and SQL.

Tools: Git and GitHub.

Additional technology: EJS.

PERSONAL PROJECTS

Barber Appointment Booking Web Application
Personal project in development.

Developing the frontend of a web application designed to connect barbers with customers.

- User experience designed for two user groups: barbers and customers.
- Planned barber profiles featuring business information, service prices, and weekly availability.
- Customer-facing booking experience for checking availability and requesting appointments.
- Frontend development using React.js.

Status: Frontend in development; backend implementation pending.

The source code is maintained in a private repository.

WEB DEVELOPMENT TRAINING

Web Development Bootcamp — Angela Yu, Udemy

Completed through Module 36, covering:

- HTML, CSS, and JavaScript.
- User interface development with React.js.
- Backend fundamentals with Node.js and Express.
- REST API development and consumption.
- Relational databases with PostgreSQL and SQL.
- Version control with Git and GitHub.

The bootcamp has not yet been completed.
